**M/S/P** to approve minutes from Feb 9 meeting.

Announcements: The U.S. State Department has recently changed its method of reporting foreign travel advisories. Since the study abroad programs we approve are partly based on State's travel advisories, this change will affect our list of approved programs.

For the rest of the meeting we reviewed the list of students applying for study abroad for 2018-19. Since more students applied than the study abroad budget can afford, we had to decide which of these student applications should be accepted for study abroad next year. After much discussion, we approved 173 out of 185 applications for study abroad for 2018-19.

Respectfully submitted,  
Mike Spivey
