THE UNIVERSITY OF PUGET SOUND

2021-2022 CURRICULUM GUIDE

ENVIRONMENTAL POLICY AND DECISION MAKING (Must Be Secondary Major)

DEGREE: BA

CONTACT PERSON: RACHEL DeMOTTS

A SUGGESTED four-year program:

Fall Semester Classes

Spring Semester Classes

Freshman	Units		Units
SSI 1	1	SSI 2	1
Primary major class	1	Primary major class	1
Approaches Core	1	Approaches Core or Elective	1
FL (if needed) or Elective	1	FL (if needed) or Elective	1

Sophomore	Units		Units
ENVR 2001 or Primary major class	1	ENVR 201	1
Primary major class	1	ENVR 202 ² and/or ENVR 203	0.5-1
Primary major class or Elective	1	Primary major class or Elective	1
Approaches Core or Elective	1	Approaches Core or Elective	1

Junior	Units		Units
ENVR 2001 or Primary major class	1	EPDM Policy or EPDM General Elective 1	1
EPDM Policy* or EPDM General Elective 1	1	Primary major class or Elective	1
Primary major class or Elective	1	Primary major class or Elective	1
Approaches core or Elective	1	Approaches Core or Elective	1

Senior	Units		Units
EPDM General Elective 3#	1	ENVR 400 Senior Seminar	1
EPDM General Elective 2#	1	CN Core ³	1
Primary major class or Elective	1	Primary major class or Elective	1
Approaches core or Elective	1	Primary major class or Elective	1

Puget Sound requires a total of 32 units to graduate

NOTES:

- 1) Prior to 2018-19, this course was numbered ENVR 101.
- 2) ENVR 202 (0.5 unit) is required for non-science majors. Science majors may substitute three courses in natural sciences (BIOL, CHEM, GEOL, PHYS) for ENVR 202. If you are a non-science major with EPDM as an overlay major, you must take both ENVR 202 and 203 concurrently in the spring. If you are a science major with EPDM as an overlay major, only ENVR 203 is required, offered in spring only.
- *ENVR 201 is required for the major and is not an elective for a major. See the Bulletin for a list of policy electives offered for majors. #At least two of the general electives must be outside the student's primary major department or program.
- 3) Of the three units of upper division coursework required outside the first major, the Connections course will count for one unless it is used to meet a major requirement.
- A maximum of two courses used to meet the EPDM requirements major may also be used to satisfy the core curriculum, the requirements for another major, or the requirements of a minor.

The EPDM major is a secondary major that can be chosen only after a primary major in another field is chosen. A major in EPDM cannot be completed unless a primary major in another department or program is also completed.

Commented [RBD1]: ENVR 400 is being moved to the spring as of the 2021-22 school year and will remain there (spring only).

-	ENVR 400 ²	1		
-	A minimum of one policy elective ³ :			
-	1.	1		
-	Three additional electives***:			
_	1.	1		
	2. #	1		
	3.#	1		
	Experiential education requirement##			

THIS FORM IS NOT AN OFFICIAL GRADUATION ANALYSIS

NOTES

The EPDM major is a secondary major that can be chosen only after a primary major in another field is chosen. A major in EPDM cannot be completed unless a primary major in another department or program is also completed.

- 1) Prior to 2018-19, ENVR 200 was numbered as ENVR 101. Both courses are accepted as the foundational course.
- 2) Seven requirements for the Environmental Policy and Decision Making major must be completed in residence, including ENVR 101/200, 201, 202* (*unless 202 is replaced by three courses in the sciences), 203, 400, and the policy elective.
- **Non-science majors must take both ENVR 202 and 203. Science majors who have completed three courses in a natural science (BIOL, CHEM, GEOL, PHYS) are not required to take ENVR 202.
- 3) At least one policy elective MUST be completed BEFORE taking ENVR 400, which is only offered in the spring semester.
- **Choose one of the following: CONN 410; ECON 225; ENVR 210; ECON/ENVR 327; ENVR 310, 322, 328; ENVR/PG 382; IPE 331; PG 305, 309. For minors, ENVR 201 can count as a policy elective.
- ***Choose three electives from the lists of policy and general electives. Students may take four of EPDMs 0.25 academic unit classes to add up to one elective unit. See Bulletin for full list of policy and general courses.
- #At least two of these electives must be outside of the student's primary major department or program.
- ##Completion of an experiential education requirement, to be approved by the program (refer questions to the program director) and verified the semester prior to graduation. Examples of experiential education include, but are not limited to: a study-abroad with environmental courses, field schools that have an environmental focus (e.g. ENVR 342), a summer research experience, many of the ENVR-listed 0.25 unit courses, or an environmentally-related internship.

Majors may satisfy no more than two university core requirements, or another major or minor requirement, from EPDM offerings.
